## INTELLECT DRIVES SUCCESS

Crisis happens. Volatility, Uncertainty, Complexity and Ambiguity - VUCA (coined at the Army War College in the early 1990's) is a sobering reality for police officers nationwide. In simple terms, VUCA is chaos. It falls on law enforcement professionals to understand it, prepare for it, and minimize the disruptive and destabilizing effects of it on self, agency and the communities they serve.

This workshop introduces "MAGNUS Leadership" (Javidi, 2016) as a practical and tactical counter VUCA for enhanced officer effectiveness, wellness and resiliency. The program is a scientific application and expansion of the *Reversal Theory* (Apter, 1975) focusing on activating *positive brain and deep emotional intelligence*. The workshop has received overwhelming positive response from agencies nationwide including WI Dept. of Justice and HIDTA (High Intensity Drug Trafficking Areas - US DoJ) through supported grants for their affiliated agencies.

### Learning Objectives

1. Have a theoretical, scientific, and practical understanding of VUCA and its short, intermediate, and long-term effects on officers' personal and professional life.
2. Understand Reversal Theory as a tactical framework to counter VUCA.
3. Develop comprehensive emotional intelligence and cognitive learning tools to enhance leadership advance (conscious and unconscious) wellness and resiliency.

### Course Materials:

1. Two (2) books
2. Four (4) self -assessments
3. Course Materials with Workbook
4. National Certificate of Completion
5. MAGNUS Leader Coin Plaque
6. Induction to the National Command & Staff College
