Course Overview: In law enforcement one thing is certain, **crisis will happen!** Breaking down each crisis to understand the volatility, uncertainty, complexity and ambiguity is a philosophy known as VUCA. Viewing the police environment from the VUCA perspective is empowering and an essential skill for police officers nationwide. In simple terms, VUCA is chaos. Today the professional LEO must recognize VUCA and mitigate VUCA to minimize disruptive and destabilizing effects on himself or herself and the organization. The 5-days Credible Leadership Initiative is an extended version of the **MAGNUS Leadership** workshop to include both classroom and on-line learning. This program provides scientific educational modules combined with practical and tactical counter VUCA strategies for officer credibility, effectiveness, wellness and resiliency. The course is based in the science of Reversal Theory, Cognitive and Motivational Theories, Moral Philosophy and Emotional Intelligence.
