

The National Command & Staff College

Also known as The International Academy of Public Safety

11,346,275 Hours Trained Since 2010

Academically Validated and Certified | Used by Elite
Military Units & National Public Safety Leaders

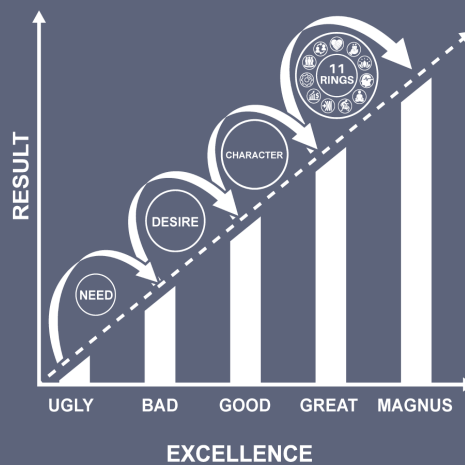

I

Our mission: To train and equip your agency to do more than just survive, but thrive. By enhancing each individual's leadership capacity, well-being, morale, productivity, and team-building skills, we aim to reduce risk and liability, crime rates, and citizen complaints through scientific and evidence-based educational and developmental programs. In doing so, we transform agency culture, fostering an environment of respect and achievement. Embracing peak performance, morale, retention, recruitment, culture and well-being - organizations rise to new heights and everyone excels.

The National Command and Staff College champions the mantra that every individual is a leader within their sphere of influence.

The leadership paradigm has shifted beyond rank and authority; now, every officer embodies leadership. Across the nation, the Military, Sheriff's Offices, Police Departments, First Responders, and Public Safety training programs embrace our cutting-edge approach to capacity development using evidence-based, practical, habit-building solutions.

Our strategic purpose is to **INSPIRE**, **EDUCATE**, **IMPACT**, and **TRANSCEND** professionals and their organizations, transforming their **GREAT to MAGNUS** across 11 Rings of Human Peak Performance built on the General Theory of MAGNUS OVEA.

MORALE
